Personality tests.

All the team members in Akuafolink took the personality tests. The results were discussed and on Whatsapp and were true representation of each of the members. Below are the summaries of the test results:

Dorcas Fredua Asimeng

Dorcas took the personality test and had **Advocate** as her test result.

Advocates (INFJ-A) tend to seek careers that align with their values rather than one that offers status material gain. Fortunately, people with this personality type are able to find work that suits them in just about any field. They excel in a range of fields and love to help others.

Jason Kwame Appiatu.

Jason took the personality test and he had Campaigner as his score.

We got to know that, **Campaigners** are fascinated by new ideas, both in terms of developments in fields they are already familiar with and when new subjects come along. However, they face challenges in selecting career paths, not because they lack talent but because there are so many things that are just cool to them. They have good personal skills but they do not like repetition and following the status quo.

Emmanuel Forson Owusu.

Emmanuel took the personality test and he had **Consul** as his score.

Consul personalities take each stage, from dating to everything there after very seriously.

They create understanding early; building mutual respect and support for each other's opinion and goals. **Consuls** are good at practical works and team works.

Samuel Abdul-Rahman Adetsi

Samuel took the personality test and he had **Architect** as his score.

Architects are thoughtful tacticians. They love perfecting the details of life, applying creativity and rationality to everything they do. Their inner world is often a private, complex one.

Professional knowhow is often where architects (INTJs) shine most brilliantly. But these personalities won't settle for just any career. They want to tackle meaning challenges and find elegant solutions to important problems, not just tinker with figures in spreadsheets.

Architects view a combination of intelligent approaches and hard work as the road to excellence.

His results can be viewed by tapping on this link:

Prince Acheampong and Emmanuel Hanyabui.

Both Prince and Emmanuel took the personality test separately but had **Protagonist** as their score.

Protagonists are natural born leaders full of passion and charisma. They for around two percent of the population, they are often times our politicians, our coaches and our teachers; reaching

out and inspiring to achieve and to do good in the world. Protagonists take a great deal of pride in guiding others to work together to improve themselves and their community.
